(Press Release)

"BlueWater Automation merges with MD Packaging"

Dear Valued Customer,

In an effort to streamline operations and to facilitate a broader strategy around consumables, BlueWater Automation Inc has merged with MD Packaging Inc of Uxbridge ON.

Founded in 1989 with a long-standing history of providing packaging and inspection solutions to the CPG markets in Canada, MD Packaging is headquartered in Uxbridge with various satellite branches across Canada.

BlueWater Automation's focus on Sanitary Equipment design will remain core to its philosophy while the consumable division will become part of a greater plan within MD Packaging.

Importantly, it's business as usual!! Over the coming months, years, MD Packaging will be adding resources both in sales and service to implement our growth plan and continue our long history of providing clients with superior project management, service and support. The addition of BWA to our MD structure will facilitate a more seamless process for our customers and is once again a great step forward in delivering value added solutions to the Canadian marketplace.

Our goal during this transition is that if we hadn't informed you, you may not have noticed a thing! We look forward to this next chapter in MD Packaging's history and please don't hesitate to contact us with any questions.

With warm regards and a great deal of excitement,

Jaime Alboim
MD Packaging Inc.
